

MEMORANDUM

TO: Laboratory Reference Centre Clients / Laboratory Directors

DATE: November 14, 2012

**RE: CHANGES TO TEST PARAMETERS
(Specimen containers and Reference Intervals)**

EFFECTIVE NOVEMBER 28, 2012

Please find attached detailed information regarding changes to specific test parameters associated with our new Core Laboratory instrument platforms. These include changes to specimen containers and reference intervals. The changes in reference intervals reflect not only our new instrumentation but also our efforts to ensure this essential information is current and comprehensive.

Please note: We have included this information as an excel spreadsheet to facilitate the changes made by your LIS department.

Sincerely,

Dr Tony Chetty, Discipline Director, Clinical Chemistry
Hamilton Regional Laboratory Medicine Program
