TO: **Laboratory Reference Centre Clients**  
FROM: Dr. Tony Chetty, Discipline Director  
Clinical Chemistry/Immunology  
DATE: March 17, 2011  
SUBJECT: **Total Testosterone – Revised Reference Interval**

---

The previous memo dated January 27, 2011 listed an incorrect Total Testosterone Reference Interval for Male 20 – 49 years.

**Effective Immediately:**

Corrected reference interval for Total Testosterone:

Male 20 – 49 yrs: **5.5 – 25.2** nmol/L

Please note: All other reference intervals for total testosterone remain the same. We apologize for any confusion caused by this error.

For further information about these changes, please contact:
